

MEMORANDUM OF UNDERSTANDING

Establishing a Center of Excellence from Olewin Pvt Ltd - India

BETWEEN

OLEWIN PVT. LTD.

(Represented by Mr. Bandaru Mahesh, Founder & Director)

AND

COLLEGE

(Represented by its Chairman / Director

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding ("MoU") is executed on this ____ day of _____, 2026, at _____, India.

BY AND BETWEEN

OLEWIN PVT. LTD., a company incorporated under the Companies Act, 2013, bearing **CIN: U62013AP2025PTC123018**, having its registered office at AmaranarayanaPuram,Kotavooru,Annamayya, Andhra Pradesh - India - 517326, and represented by its **Director/Founder, Mr. Bandaru Mahesh**, duly authorized to execute this Memorandum of Understanding on behalf of the Company (hereinafter referred to as "**Olewin**", which expression shall, unless the context otherwise requires, include its successors and permitted assigns), of the **FIRST PART**;

AND

[**FULL LEGAL NAME OF THE INSTITUTION**], affiliated to [**NAME OF AFFILIATING UNIVERSITY / STATUTORY BODY**], having its campus/registered institutional address at [**FULL ADDRESS**], and represented by its [**Chairman/Secretary/Principal/Director**], [**Dr./Mr./Ms. Full Name**], duly authorized to execute this Memorandum of Understanding on behalf of the Institution (hereinafter referred to as the "**Institution**", which expression shall, unless the context otherwise requires, include its successors and permitted assigns), of the **SECOND PART**.

Olewin Pvt. Ltd. and the **Institution** are hereinafter individually referred to as a "**Party**" and collectively as the "**Parties**."

TERM AND DURATION

THESE MoU shall remain in force for an initial period of "**Nine (9) years**" commencing from the Effective Date.

THE "Parties" intend this collaboration to constitute a long-term academic-industry partnership for the establishment, operation and progressive expansion of the **Center of Excellence (CoE)**, including its infrastructure, R&D activities, DeepTech initiatives, Technology development, Real-Time Company Projects and Product-development ecosystem.

RECITALS

A. WHEREAS, **Olewin Pvt. Ltd.** is a technology, research and innovation company engaged in Research & Development (R&D), DeepTech innovation, technology development, professional and industry-oriented technology training, research facilitation, software and hardware product development, and technology solutions across emerging and future technology domains, including Artificial Intelligence and Generative AI, LLM and Agentic AI, Quantum Computing and Quantum Communication, Robotics and Autonomous Systems, Space and Satellite Technologies, Drone Technologies, Energy and Green Technologies, Semiconductor and Embedded Systems, Cybersecurity, Blockchain, Cloud and Advanced Computing, IoT, Digital Twins, AR/VR/XR, AgriTech, EdTech and other emerging future technology domains.

OLEWIN activities include the development of technology platforms, research programs, real-time industry projects, DeepTech solutions, intellectual property, prototypes and market-oriented products, as well as the creation of industry-academia ecosystems that enable students, faculty, researchers and institutions to participate in practical R&D, innovation and product-development initiatives.

B. WHEREAS, the Institution is engaged in imparting higher education and is desirous of enhancing the **industry-readiness, academic capabilities, research orientation and innovation culture** of its students and faculty;

C. WHEREAS, both Parties are desirous of establishing a **Center of Excellence ("CoE")** on mutually agreed terms for the purposes and objectives set forth in this MoU;

D. NOW, THEREFORE, in consideration of the mutual understandings, commitments and undertakings contained herein, and intending to establish a long-term academic–industry collaboration.

The Parties hereby agree to the following terms and conditions:-

1. DEFINITIONS AND INTERPRETATION

For the purposes of this Memorandum of Understanding ("MoU"), unless the context otherwise requires, the following terms shall have the meanings set forth below:

1.1 "CoE" or "Center of Excellence" means the Center of Excellence established and operated under this MoU as an academic–industry collaboration platform for **skill development, research and development (R&D), DeepTech innovation, technology development, product engineering, entrepreneurship, and industry engagement**.

1.2 "Effective Date" means the date on which this MoU is duly executed and signed by the authorized representatives of both Parties, as specified on the signature page In witness Whereof.

1.3 "Confidential Information" means any technical, commercial, financial, academic, research, operational, business, or proprietary information disclosed by one Party to the other Party, whether in written, oral, electronic, visual, or any other form, which is identified as confidential or which, by its nature or circumstances of disclosure, would reasonably be understood to be confidential. Confidential Information shall have the meaning further specified under the **Confidentiality and Non-Disclosure** provisions of this MoU.

1.4 "Intellectual Property" or "IP" means all intellectual property and proprietary rights, whether registered or unregistered, including **patents, patent applications, copyrights, trademarks, trade names, industrial designs, software, source code, object code, algorithms, artificial intelligence and machine-learning LLMs, RAG models, datasets, databases, inventions, discoveries, processes, methodologies, technical know-how, trade secrets, product architectures, designs, specifications, documentation, prototypes, technologies, and other proprietary rights** arising from or relating to the R&D, DeepTech, innovation, technology-development, and product-development activities undertaken under the CoE.

1.5 "Steering Committee" means the joint governance and oversight body constituted by the Parties under this MoU to provide strategic direction, review the activities and performance of the CoE, facilitate coordination between the Parties, and oversee the implementation of the objectives and programs contemplated under this MoU.

1.6 "Program(s)" means any activity, initiative, or engagement undertaken under or through the CoE, including **training programs, professional certification programs, internships, workshops, Faculty Development Programs (FDPs), research activities, R&D projects, innovation initiatives, hackathons, product-development projects, industry projects, conferences, entrepreneurship initiatives, technology demonstrations, and other academic, technical, or professional development activities** mutually agreed upon by the Parties.

1.7 "Party" means either **Olewin Pvt. Ltd.** or the **Institution**, individually, and **"Parties"** means Olewin Pvt. Ltd. and the Institution collectively.

1.8 "Institution" means the educational institution identified in this MoU as the academic partner and host institution for the establishment and operation of the CoE under the **OLEWIN PRIVATE LIMITED**.

1.9 “Olewin” means **Olewin Pvt. Ltd.**, including its authorized representatives, personnel, technical experts, researchers, consultants, and designated project teams engaged in activities under this MoU.

1.10 “R&D” or “Research and Development” means systematic research, experimentation, engineering, technology development, prototyping, testing, validation, optimization, and related activities undertaken to develop new or improved technologies, systems, processes, software, hardware, products, or solutions.

1.11 “DeepTech” means technology-driven research and innovation based on advanced scientific, engineering, computational, or technical capabilities, including areas such as **Artificial Intelligence, Generative AI, Quantum Computing, Robotics, Space Technologies, Semiconductor Technologies, Energy Technologies, Advanced Computing, IoT, and other emerging technologies**.

1.12 “Product Development” means the process of converting a concept, research outcome, technology, or innovation into a functional product, system, platform, software, hardware, prototype, or deployable solution, including requirements analysis, architecture, design, development, integration, testing, validation, deployment, and subsequent enhancement.

1.13 “Authorized Representative” means a person duly authorized by either Party to act on its behalf in connection with this MoU and the activities of the CoE.

1.14 Interpretation

This MoU shall be interpreted in accordance with its terms and the mutual understanding and intent of the Parties. References to the singular shall include the plural and vice versa. References to any **Clauses, Schedules 1 to 6, and Annexure A to C** shall mean the corresponding provision forming part of this MoU. The headings used in this MoU are for convenience and reference purposes only and shall not affect its interpretation.

1.15 Amendments and Modifications

Any amendment, modification, addition, or clarification to this MoU shall be made only with the mutual written consent of both Parties and shall form part of this MoU upon being duly signed by the authorized representatives of the Parties.

2. PURPOSE OF THE MoU

- The purpose of this Memorandum of Understanding (“MoU”) is to establish and facilitate a structured, long-term and industry-integrated **Center of Excellence (“CoE”) for Research & Development, DeepTech Innovation, Technology Development, Skill Development and Product Engineering** within the Institution.
- The CoE shall serve as a dedicated platform for enabling **industry-oriented learning, applied research, multidisciplinary innovation, technology experimentation, real-time project development and product engineering**, providing students, faculty members and researchers with meaningful exposure to contemporary and emerging technologies.
- The CoE shall further facilitate the progressive development of institutional capabilities in **Research & Development, DeepTech, advanced computing, artificial intelligence, emerging technologies, innovation and technology product development**, supported by appropriate technical expertise, infrastructure, industry practices and project-based learning.
- The Parties intend to establish and progressively strengthen the CoE as a **sustainable academic–industry innovation ecosystem**, with its infrastructure, technology capabilities, research activities, training programs and product-development initiatives evolving in accordance with technological advancements, industry requirements, research priorities and mutually identified opportunities.

- The Parties shall collaborate in good faith to create an environment that promotes **continuous skill development, research excellence, innovation, entrepreneurship, intellectual property creation and industry readiness**, while providing opportunities for suitable technologies and innovations to progress from research and experimentation towards functional prototypes, products and real-world applications.

3. OBJECTIVES

The Center of Excellence (CoE) shall pursue the following objectives:

1. **Strengthen Academia–Industry Collaboration** by establishing a structured interface between academic learning, industry practices, emerging technologies, and real-world professional requirements.
2. **Enhance Student Employability and Professional Readiness** through industry-aligned technical training, practical exposure, professional certifications, internships, multidisciplinary projects, and hands-on product development.
3. **Promote Innovation, Research and Product Development** by providing students and faculty with opportunities to conceptualize, develop, prototype, validate, and deploy technology-driven solutions addressing real-world challenges.
4. **Establish a Sustainable Institutional R&D Ecosystem** that encourages continuous research, technical experimentation, multidisciplinary collaboration, publications, intellectual property development, and technology innovation.
5. **Facilitate Entrepreneurship and Startup Development** by supporting promising student and faculty innovations through mentoring, prototyping, incubation, industry engagement, commercialization support, and relevant entrepreneurial opportunities.
6. **Enable Real-Time Industry and R&D Projects** by providing access to practical, multidisciplinary, industry-relevant projects, case studies, technologies, development environments, and product engineering experiences.
7. **Develop Advanced and Future-Ready Technology Capabilities** through continuous learning and practical exposure in emerging domains including Quantum, Photonic & Edge Computing, Robotics, Space Technologies, Energy Technologies, Semiconductor, AI, Machine Learning, Generative AI and LLMs, RAG, AI-Agents, and VLSI, IoT, Cybersecurity, Cloud Computing and other emerging DeepTech domains.
8. **Create a Continuous Technology Development Pipeline from learning and research to innovation, prototyping, product development, deployment, commercialization, and industry adoption**, thereby enabling the Institution to progressively develop into a research- and innovation-driven campus.
9. **Intellectual Property and Product Ownership:** All products, technologies, software, hardware, designs, architectures, prototypes, algorithms, models, research outputs, and other intellectual property **developed, created, or commercialized under the CoE using “Olewin”** resources, R&D ecosystem, or project frameworks shall be the exclusive intellectual property of **Olewin Pvt. Ltd.**, unless otherwise expressly agreed in writing between the **Parties**.
10. Create a continuous development pipeline from:-
Learning → Research → Innovation → Prototype → Product Development → Deployment → Commercialization

4. SCOPE OF COLLABORATION

The Parties shall collaborate to establish, operate, and progressively develop the Center of Excellence (CoE) as an industry-integrated **Research, Innovation, DeepTech and Product Development ecosystem**.

The scope of collaboration shall include, but shall not be limited to, the following:

1. **Establishment and Operation of the CoE**
Establish, operate, manage, and progressively expand the Center of Excellence within the Institution with appropriate technical, research, innovation, and product-development infrastructure.
2. **Research & Development (R&D)**
Undertake collaborative and multidisciplinary R&D initiatives in emerging technologies, DeepTech domains, and industry-relevant areas based on mutually identified priorities.
3. **Industry-Aligned Training & Professional Certifications**
Conduct structured technical training, professional certification programs, workshops, boot camps, and skill-development initiatives aligned with evolving industry requirements.
4. **Internships & Industry Exposure**
Facilitate internship opportunities, subject to project availability, eligibility, selection criteria, confidentiality requirements, and organizational requirements of the participating entities.
5. **Real-Time Product Development**
Provide opportunities for eligible students, faculty, researchers, and project teams to participate in real-world technology projects involving research, system design, engineering, prototyping, testing, deployment, and product development.
6. **Innovation, Intellectual Property & Technology Development**
Encourage the development of innovative technologies, prototypes, software, hardware, algorithms, systems, and other technology solutions, with intellectual property ownership and associated rights governed by the applicable provisions of this MoU and/or project-specific agreements.
7. **Research Publications, Patents & Technology Transfer**
Facilitate research publications, patent development, technology documentation, technical reports, and technology-transfer activities, subject to applicable confidentiality, intellectual property, and approval requirements.
8. **National & International Conferences and Technical Events**
Encourage and facilitate participation in national and international conferences, symposiums, exhibitions, technical forums, research events, and industry engagements.
9. **Faculty Development & Capacity Building**
Conduct Faculty Development Programs (FDPs), technical upskilling programs, research workshops, industry orientation programs, and continuous professional development initiatives.
10. **Student Innovation & Competitions**
Organize hackathons, innovation challenges, technical competitions, project showcases, technology demonstrations, prize competitions, and other innovation-oriented activities.
11. **Startup, Entrepreneurship & Incubation Support**
Encourage student and faculty entrepreneurship by providing appropriate mentoring, technical guidance, prototyping support, incubation linkages, industry exposure, and commercialization-oriented opportunities, subject to applicable institutional policies.
12. **Career Development & Industry Readiness**
Support career development through industry-oriented projects, professional certifications, technical assessments, portfolio development, interview preparation, placement-readiness programs, and exposure to emerging technology roles.
13. **Multidisciplinary Collaboration**
Promote collaboration among students, faculty, researchers, industry professionals, and technical experts across multiple academic disciplines and technology domains.
14. **Technology Infrastructure & Innovation Ecosystem Development**
Progressively develop laboratories, computing infrastructure, AI/LLM /GPUs systems, research facilities, prototyping capabilities, and other technical infrastructure based on emerging technology and R&D requirements.

15. **Industry–Academia Knowledge Exchange**

Facilitate exchange of technical knowledge, industry practices, research expertise, case studies, technology insights, and professional experiences between the Institution and Olewin.

16. **Product Launch & Commercialization Opportunities**

Where mutually agreed and subject to applicable intellectual property and commercial arrangements, facilitate the transition of suitable innovations from **research and concept** → **prototype** → **validation** → **product development** → **deployment** → **commercialization**.

17. **Continuous Technology Advancement**

Periodically review and expand the CoE's programs, technology domains, infrastructure, and R&D activities in response to emerging technologies, industry requirements, research opportunities, and future workforce needs.

5. TECHNOLOGY DOMAINS

The Center of Excellence shall focus on, without limitation, the following technology domains, The technology domains are indicative and non-exhaustive. The CoE may introduce additional emerging technologies, tools, platforms, research areas and industry-relevant domains based on technological developments, market requirements, research opportunities, institutional capabilities and product-development objectives, subject to mutual written agreement between the **Parties**.

Artificial Intelligence & Machine Learning	Generative AI & LLM Engineering	Agentic AI & Autonomous AI
RAG & AI Knowledge Systems	Data Science & Advanced Analytics	Cloud & Distributed Computing
Cybersecurity	Quantum Computing	Quantum Communication & Cryptography
Robotics & Autonomous Systems	Drone & Unmanned Aerial Systems	Internet of Things (IoT)
Embedded & Edge Computing	Semiconductor Design & VLSI	Space Technologies
Satellite Communication & SDR	Energy & Green Technologies	Smart Grid & Power Systems
Blockchain & Web3	AR / VR / XR	Spatial Computing
Industry 5.0	Digital Twins	Industrial Automation
High-Performance Computing	Photonic & Optical Computing	Neuromorphic Computing
Edge AI & Intelligent Devices	Natural Language & Speech AI	Computer Vision & Spatial Intelligence
AI for Science & Engineering	Bioinformatics & Computational Biology	Biomedical Engineering

FinTech & Intelligent Finance	AgriTech & Agriculture	Autonomous Smart Cities & Intelligent Infrastructure
Autonomous Vehicles	Intelligent Mobility	Operating Systems & Systems Engineering
DevSecOps	MLOps & AIOps	Digital Product Engineering
5G / 6G / Next-Generation Networks	Network Engineering & SDN	Software-Defined Networking
Digital Forensics	Privacy-Preserving Computing	Federated Learning
Explainable & Responsible AI	AI Hardware & Accelerators	Digital Health & HealthTech
ClimateTech	CleanTech & Sustainable Technologies	Hydrogen & Fuel Cell Technologies
Battery & Energy Storage	EV & Electric Mobility	Autonomous Systems
GIS & Geospatial Intelligence	Remote Sensing	Computational Engineering
Simulation & Virtual Engineering	Materials Science	Nanotechnology
Biotechnology & Synthetic Biology	FoodTech	ConstructionTech
Smart Infrastructure	Maritime & Ocean Technologies	Defence & Aerospace Technologies
FinTech & RegTech	EdTech & Learning Technologies	LegalTech
Enterprise Software & SaaS	Product Engineering & R&D	Technology Entrepreneurship & Innovation
Advanced Robotics	Human–Machine Collaboration	Cognitive Computing
Intelligent Automation	Digital Manufacturing	Industrial AI
Secure Computing	Post-Quantum Cryptography	Distributed Ledger Technologies
Knowledge Engineering	Semantic AI	Multimodal Intelligence

6. RESPONSIBILITIES OF OLEWIN PVT. LTD (CoE Establishment & Governance)

Olewin shall, in respect of the CoE:

- The CoE shall be physically established at the location specified at the Institution's campus, and shall be branded as an "Olewin Center of Excellence" in a manner mutually agreed by the Parties.
- Design, set up and operationalise the CoE in coordination with the Institution
- Develop and share an annual training and activity roadmap
- Deliver industry-integrated certification programs aligned to current technology standards
- Offer internship opportunities to eligible students, subject to project availability
- Facilitate real-time product development opportunities for students and faculty
- Conduct periodic workshops, bootcamps and hackathons
- Provide access to the **SkillExion** Dashboard for tracking learning progress (UG & PG - All Branches)
- Support research publications and innovation activities emerging from the CoE
- Organise technical events, seminars and conferences
- Assist students with portfolio development and career readiness

6.1 Olewin Phased Technology Investment

Olewin proposes a progressive technology investment model rather than a one-time laboratory setup.

- Olewin shall make a phased investment in equipment, software licences, and technology infrastructure at the CoE, in accordance with the phases, indicative timelines, and equipment/technology.

Investment Phases	Focus
Phase I	CoE Foundation & Core Technology Infrastructure
Phase II	Advanced Technology & R&D Infrastructure
Phase III	DeepTech, Innovation & Product Development
Phase IV	Advanced AI/GPU, R&D and Product Engineering
Future Phases	Emerging Technologies Expansion & Infrastructure

- The above investments are indicative phase-wise technology investment proposals and shall be implemented based on technical requirements, project requirements, infrastructure readiness, emerging technologies, R&D activities and mutually approved implementation plans.
- Subsequent phases shall not constitute an unconditional financial commitment unless separately approved and documented by the Parties.
- Olewin may increase, defer, restructure or modify the nature of technology investment based on actual technical requirements.
- Investment shall primarily relate to technology systems, hardware, software, R&D infrastructure, computing infrastructure, Product-development systems and related technical resources.

- Ownership of equipment and assets deployed under the Phased Technology Investment shall be owned & governed by Olewin Pvt Ltd.(Equipment & Asset Ownership).
- Nothing in this Clause obligates Olewin to invest beyond the amounts, equipment, or timelines specified and any investment beyond that scope shall require a separate written agreement between the Parties.
- **CoE Activation:** CoE activities and phased implementation shall commence upon execution of the MoU by both Parties.
- **Phased Investment:** Olewin shall progressively invest in CoE infrastructure, technology, R&D, computing/GPU Systems and DeepTech capabilities based on the approved development roadmap and requirements.

CoE Activation & Institutional Enrollment

- **MoU Execution & Student Enrollment:** Upon execution of the MoU by both Parties, **all students across all UG and PG departments and branches of the Institution** shall be enrolled/registered with the CoE, with the applicable **₹1,500 CoE registration fee (One-time Registration)** to be completed within **15 days** from the date of MoU execution.
- **Phased Technology Deployment:** Following completion of the institutional registration process, Olewin shall commence the **systematic, phase-wise deployment and implementation of the required technology ecosystem, infrastructure, R&D facilities, computing/GPU systems and DeepTech capabilities** based on the CoE development roadmap and requirements within 90 days of MoU Execution bringing CoE into functional stage at Phase - 1.
- **Company-Owned Infrastructure:** All hardware, software, technology systems, equipment, computing infrastructure and other assets procured, deployed or invested by Olewin under the CoE shall remain the sole and exclusive property of Olewin and shall not constitute assets of the Institution.

OLEWIN PRODUCT ECOSYSTEM & CONFIDENTIAL PROJECTS DEVELOPMENT

Follows:-

- **Institution-Specific Product Opportunities:** Following establishment of the CoE, the Institution may be considered for dedicated product-development opportunities under Olewin Pvt. Ltd., based on technical capability, project requirements and mutual approval.
- **Project Authorization:** Any product-development activity undertaken through the CoE shall require prior written approval from Olewin Pvt. Ltd. and shall be governed by the applicable project scope, technical requirements, deliverables and timelines.
- **Separate Project Arrangement:** Such product-development initiatives may be undertaken outside the general scope of this MoU and may be governed by a separate Project Charter, Statement of Work, Project Agreement or other written authorization issued by Olewin.
- **Confidentiality & NDA:** Where students, faculty, staff or other representatives of the Institution are provided access to Olewin's proprietary technology, confidential information, source code, product designs, R&D data or real-time company projects, the concerned participants shall execute an appropriate **Non-Disclosure Agreement (NDA) / Confidentiality Undertaking with Olewin Pvt. Ltd.** before such access is provided.
- **IP & Ownership:** All Intellectual Property, proprietary technology, product designs, technical documentation, softwares, models, inventions and other deliverables developed under an Olewin-approved product-development project shall be governed by the Intellectual Property provisions of this MoU and/or the applicable project-specific agreement.

MoU Provision — Product Access & Ownership

- **Olewin Product Ecosystem:** The CoE may provide students and Institution personnel with controlled academic, technical and project-based access to products, technologies, R&D initiatives and development environments undertaken or authorized by Olewin Pvt. Ltd.
- **Intellectual Property & Ownership:** All proprietary products, technologies, platforms, software, hardware designs, algorithms, models, technical documentation, inventions, research outputs and related Intellectual Property owned or independently developed by Olewin Pvt. Ltd. or its authorized entities shall remain the exclusive property of the respective owner, subject to applicable law and any project-specific written agreement.
- **Restricted Commercial Use:** Access provided through the CoE shall not constitute any transfer, assignment, license or ownership right in Olewin products or Intellectual Property. Any external use, reproduction, commercialization, distribution or derivative development shall require prior written authorization from Olewin Pvt. Ltd.

6.2 EQUIPMENT AND TECHNOLOGY ASSETS

- Technology equipment, hardware, servers, GPU systems, computing systems, software licenses and other technical assets purchased or supplied by Olewin shall remain the property of Olewin unless otherwise agreed in writing.
- The Institution shall provide reasonable access and physical protection for Olewin-owned equipment installed within the CoE.
- The Institution shall not transfer, sell, pledge, modify, relocate or otherwise dispose of Olewin-owned equipment without prior written approval from Olewin.
- Upon termination of this MoU, Olewin shall have the all right to remove (ATR) its equipment and technology assets

6.3 THE STEERING COMMITTEE MAY CONSIST OF:

From Olewin:	From Institution:	The Steering Committee shall:
● Authorized senior representative; ● CoE Head/R&D Head; ● Technical representative. ● Professional Training staff	● Principal/Director ● Institutional R&D representative ● Nominated faculty representative. ● Teaching & Training staff	● Review CoE performance ● Review R&D activities; ● Review training programs; ● Monitor technology development; ● Evaluate project progress; ● Review infrastructure requirements; ● Facilitate institutional coordination; ● Review innovation initiatives; and Recommend future expansion.

6.4 TRAINING AND CERTIFICATION

The CoE may conduct:

- Professional certification programs;
- Technical skill programs;
- advanced technology programs;
- industry-oriented programs;
- Workshops ,bootcamps

- FDPs;
- Technical seminars;
- Project-based learning;
- Professional development programs; and
- Other approved programs.

Certification shall be subject to applicable attendance, assessment, project completion and eligibility requirements.

7. RESPONSIBILITIES OF THE INSTITUTION

The Institution shall, in respect of the CoE:

- Provide dedicated, secure classroom, laboratory, and CoE space of - 2000 - 3500 Sq.ft
- Nominate a CoE Coordinator, who shall be the Institution's primary point of contact for day-to-day CoE operations.
- Provide all necessary institutional, statutory, and regulatory approvals required to operate the CoE on campus
- Promote CoE activities, achievements, and opportunities among students, faculty, and the wider Institution community
- Encourage interdisciplinary participation across departments
- Provide reasonable administrative support for enrolment, attendance tracking, and certification processes conducted through the Institution
- Ensure the security of Olewin-owned equipment and assets installed at the CoE.
- Cooperate with Olewin in periodic review of the Phased Technology Investment plan and infrastructure readiness
- The Institution shall nominate suitable existing faculty members to participate as CoE faculty/teaching personnel and shall facilitate their training, upskilling and continuous technical development under Olewin-led industry
- Programs enabling them to effectively mentor and deliver approved CoE programs based on real-time industry projects, R&D activities, emerging technologies and product-development practices.
- The CoE shall function as an integrated component of the Institution's academic and skill-development ecosystem, with the Institution facilitating the registration and participation of all students across both Undergraduate (UG) and Postgraduate (PG) programs and disciplines.
- The CoE shall provide structured, branch-relevant and multidisciplinary training, R&D, innovation and real-time project opportunities to students across the Institution, subject to applicable academic regulations and program requirements.

7.1 Infrastructure Requirements

- The Institution shall provide uninterrupted electrical power supply to the CoE space, including backup power (UPS/generator if Applicable) sufficient to support the equipment installed under the Phased Technology Investment plan, with any additional electrical load or wiring upgrade required for later phases.
- The Institution shall provide dedicated, high-speed internet connectivity to the CoE space, meeting the minimum bandwidth and latency specifications with priority or dedicated bandwidth allocation where specified for Programs requiring cloud or real-time computing access.
- The Institution shall provide air-conditioning and environmental controls adequate to maintain safe operating conditions for computing and laboratory equipment installed at the CoE, in accordance with the specifications
- The Institution shall provide adequate furniture, workstations, physical security (including access control and, where specified, CCTV coverage of the CoE space), and fire-safety compliance for the CoE space.

- Olewin shall provide reasonable advance notice and technical specification for any infrastructure requirement associated with a new Technology Domain activation, to allow the Institution adequate time to prepare the required space and utilities.

8. ESTABLISHMENT AND OPERATION OF THE COE

8.1 The Center of Excellence (“CoE”) shall be established at the designated premises within the Institution’s campus as specified in the applicable Schedule, and shall operate under the name “**Olewin Center of Excellence**”.

8.2 The Parties shall constitute a **Joint CoE Steering Committee** within thirty (30 - 45) days from the Effective Date, comprising designated representatives of Olewin and the Institution, including at least one senior representative and one CoE Coordinator from each Party.

8.3 The Steering Committee shall provide overall strategic and operational oversight of the CoE, including:

- Reviewing the CoE implementation and development roadmap;
- Monitoring the progress of CoE activities and phased technology deployment;
- Reviewing proposed Programs, projects, research and innovation activities;
- Facilitating coordination between the Parties; and
- Addressing operational matters requiring joint consideration.

8.4 The Steering Committee shall meet at least **once in each academic semester** and additionally as reasonably required by either Party. A record of material decisions and action points shall be maintained and shared with the concerned representatives.

8.5 The Parties shall endeavour to resolve matters arising before the Steering Committee through **mutual consultation and consensus**. Matters requiring a decision beyond the authority of the Steering Committee shall be referred to the authorized senior representatives of Olewin and the Institution for resolution.

8.6 Notwithstanding the foregoing, **Olewin shall retain authority over its proprietary technologies, products, R&D methodologies, Intellectual Property, confidential information, technology deployment and company-specific product-development activities**, subject to the terms of this MoU and any applicable project-specific agreement.

9. GOVERNANCE AND JURISDICTION LAW

This MoU shall be governed by and interpreted in accordance with the laws applicable in India.

- A Joint CoE Steering Committee shall be constituted, comprising equal representation from Olewin and the Institution, to oversee planning, implementation, review and continuous improvement of the CoE.
- The Steering Committee shall meet at a mutually agreed frequency, and in any event not less than once every academic semester, to review progress against the annual roadmap.
- Subject to the dispute-resolution provisions above, the courts having appropriate jurisdiction at **[Madanapalle, Annamayya, Andhra Pradesh - 517325]** shall have jurisdiction over matters arising from this MoU.

10. ACADEMIC INTEGRATION & STUDENT, FACULTY PARTICIPATION

Students may voluntarily enroll in CoE Programs, subject to eligibility criteria and applicable program fees.

- Students and faculty may participate in CoE activities subject to eligibility, selection, project requirements and applicable Olewin Pvt Ltd policies.
- Participation in real-time company projects may require additional confidentiality, security and project-specific obligations.

Students and faculty shall comply with:

- CoE rules;
- Institutional rules;
- Project Requirements;
- Confidentiality obligations;
- Cybersecurity requirements;
- Intellectual property requirements; and
- Professional standards.
- Each Student & Faculty should agree NDA from Olewin subject to Project Development Ecosystem
- Bilateral NDA for R&D, DeepTech Projects from Olewin

Participation in a CoE activity shall not automatically guarantee employment, internship, placement or commercial engagement.

11. INTELLECTUAL PROPERTY (IP) RIGHTS, OWNERSHIP & PROTECTION

11.1 Background Intellectual Property.

All Intellectual Property owned, developed, acquired, or controlled by either Party prior to the Effective Date, or developed independently of the activities under this MoU, shall remain the exclusive property of the respective Party. Nothing contained in this MoU shall operate as a transfer, assignment, or implied license of such Intellectual Property.

11.2 Olewin Intellectual Property.

All Intellectual Property belonging to, developed, acquired, or controlled by Olewin, including its proprietary technologies, software, source code, algorithms, AI/ML models, LLMs, datasets, frameworks, platforms, methodologies, curricula, training materials, technical documentation, product architectures, designs, trademarks, trade names, know-how and other proprietary resources, shall remain the exclusive property of Olewin Pvt Ltd.

11.3 CoE Project and Product IP.

Unless otherwise expressly agreed by the Parties in a separate written project-specific agreement, Intellectual Property developed through or as part of an Olewin-led CoE R&D, DeepTech, technology or product-development project, including software, hardware, prototypes, algorithms, AI/ML models, LLM applications, technical designs, systems, platforms, inventions, product concepts, documentation and related developments, shall vest exclusively in Olewin where such development is undertaken using Olewin proprietary technology, technical resources, project specifications, infrastructure, Confidential Information, personnel, funding, or R&D ecosystem.

11.4 Institution Contributions.

Where the Institution contributes pre-existing Intellectual Property, independently developed technology, proprietary research, funding, specialized equipment, or other material resources to a specific project, the ownership and permitted use of such contribution shall remain with the contributing Party unless otherwise agreed in writing. The Parties shall establish project-specific IP terms before commencement of such project where such contribution is material.

11.5 Student and Faculty Participation.

Participation by students, faculty members, researchers, trainers, mentors or other personnel in a CoE project shall not, by itself, confer ownership of Olewin's Intellectual Property or project IP upon such individual or upon the Institution. Appropriate confidentiality, IP assignment, consent or other project-specific undertakings may be required from participants before access to or participation in proprietary projects.

11.6 Course Content and Olewin Platforms.

All course content, training materials, curricula, methodologies, technical frameworks, project templates, software platforms, dashboards, including the **SkillExion Dashboard**, and other proprietary materials developed or provided by Olewin shall remain the exclusive property of Olewin. The Institution and participants shall receive only such limited right of access or use as may be expressly authorized by Olewin.

11.7 Research Publications and Disclosure.

Any publication, conference paper, technical report, patent application, public presentation or other disclosure arising from a CoE project involving Olewin's Confidential Information or proprietary Intellectual Property shall require prior written review and approval by Olewin. Appropriate authorship or inventorship attribution shall be provided in accordance with applicable law and the actual intellectual contribution of the respective individuals.

11.8 Commercialization.

Where Intellectual Property or a product is owned by Olewin under this MoU or a project-specific agreement, Olewin shall have the right to determine its further development, licensing, commercialization, deployment, technology transfer or other permitted exploitation, subject to any expressly agreed project-specific rights of the Institution.

11.9 No Implied Rights.

Except for rights expressly granted in writing, no Party shall acquire any ownership, license, right, title or interest in the Intellectual Property of the other Party by virtue of this MoU, participation in the CoE, provision of infrastructure, student participation, faculty participation, training or collaboration.

11.10 Use of Names and Trademarks.

Neither Party shall use the name, logo, trademark, trade name or brand identity of the other Party without prior written consent, except for factual and non-misleading references to the existence of the collaboration or CoE.

11.11 Project-Specific Arrangements.

Where a particular project requires a different ownership, licensing, commercialization, revenue-sharing or technology-transfer arrangement, the Parties may record such terms in a separate written Project Charter, Statement of Work, Research Agreement or other project-specific agreement. Such agreement shall prevail only with respect to that specific project.

12. CONFIDENTIALITY & PROJECT INFORMATION

12.1 Both Parties agree to maintain the confidentiality of proprietary, technical, commercial and academic information exchanged during the course of this collaboration ("Confidential Information").

12.2 Confidential Information shall not be disclosed to any third party without the prior written consent of the disclosing Party, except where disclosure is required by law, regulation or a competent court/authority.

12.3 This obligation of confidentiality shall survive the termination or expiry of this MoU for a period of three (9) years.

12.4 Confidentiality, Non-Disclosure Agreement (NDA) & Protection of Project Information

- 1. Confidentiality Obligation:** Both Parties shall maintain strict confidentiality of all confidential, proprietary, technical, commercial, research, academic, and project-related information exchanged or accessed under this MoU.
- 2. Student & Staff Obligations:** The Institution shall ensure that students, faculty members, staff, interns, researchers, mentors, and other authorized participants involved in **Olewin's real-time company projects, R&D,**

Deep-Tech innovation, internships, product development, or multidisciplinary projects are required to maintain confidentiality and shall not disclose, copy, reproduce, publish, distribute, or commercially use such information without prior written authorization from Olewin.

3. **Scope of Confidential Information:** Confidential information may include, without limitation, source code, software architecture, AI/LLM models, prompts, datasets, algorithms, APIs, research data, product designs, prototypes, engineering specifications, semiconductor/VLSI designs, quantum algorithms, robotics systems, IoT architectures, SpaceTech and drone technologies, energy technologies, business information, customer information, product roadmaps, technical documentation, and other non-public information.
4. **Multidisciplinary Projects:** As the CoE may operate multidisciplinary projects involving students and faculty from different departments and technology domains, access to confidential information shall be limited to the information necessary for the participant's assigned role. Participants shall not disclose information obtained from one project, team, department, or technology domain to unauthorized persons or other project teams.
5. **Digital & AI Platforms:** Confidential project information shall not be uploaded, transferred, or disclosed through unauthorized cloud platforms, public repositories, social media, messaging groups, personal storage, or third-party AI/LLM tools without appropriate authorization from Olewin.
6. **Research & Publication:** Students and faculty may not publish, present, upload, demonstrate, or commercially disclose confidential project results, technical information, prototypes, research data, or product information without obtaining prior written approval from the concerned Parties. Publication or patent opportunities may be evaluated jointly where applicable.
7. **Intellectual Property:** Participation in a CoE project shall not, by itself, confer ownership of Olewin existing intellectual property, proprietary technology, source code, product designs, or confidential information. Ownership and rights relating to newly developed intellectual property shall be determined in accordance with the applicable project arrangements and the Intellectual Property provisions of this MoU.
8. **Access Control:** Olewin may determine the level of technical, laboratory, software, repository, cloud, dataset, and product access provided to individual participants based on their role, project requirements, skills, and authorization.
9. **Return/Removal of Information:** Upon completion, withdrawal, or termination of participation in a project, participants shall cease using confidential information and return or delete such information when instructed by Olewin or the Institution.
10. **Breach:** Any unauthorized disclosure, copying, transfer, publication, misuse, or commercialization of confidential information may result in withdrawal of project access, removal from the CoE/project, institutional disciplinary action, termination of internship or project participation, and/or other remedies available under applicable law.
11. **Continuing Obligation:** The confidentiality obligations under this clause shall continue beyond the completion or termination of this MoU for so long as the relevant information remains confidential or protected under applicable law.
12. **Institutional Responsibility:** The Institution shall reasonably cooperate with Olewin in communicating these confidentiality requirements to participating students, faculty, staff, interns, and other authorized personnel and in addressing reported violations in accordance with applicable institutional policies and law.

13. COURSE / PROGRAM REGISTRATION AND FEE STRUCTURE

1. CoE Registration Fee:

A one-time **Center of Excellence Registration Fee of ₹1,500/- (Rupees One Thousand Five Hundred only) per student** shall be applicable for registration and access to the CoE ecosystem, subject to the terms and facilities specified by the Olewin.

2. Foundation Programs:

Foundation-level programs offered through the CoE shall generally fall within the fee range of **₹6,500/- to ₹9,500/- per student**, depending on the program, duration, technology domain, learning resources and certification requirements.

3. Premium Technology Tracks:

Advanced/Premium programs shall generally fall within the range of **₹30,000/- to ₹60,000/- per student**, depending on the technology domain, depth of curriculum, project requirements, technical infrastructure and duration.

4. Professional Advanced Tracks:

Specialized Professional Advanced Programs, including intensive industry-oriented, R&D, DeepTech and product-development programs, may range from **₹80,000/- to ₹3,00,000/- per student**, depending upon the student's selected specialization, project scope, technical infrastructure, mentorship, duration and level of industry engagement.

5. Student Choice:

Students may select programs according to their academic background, career objectives, technical interests and eligibility. Program selection shall be subject to the applicable eligibility criteria and availability of the respective program.

6. Annual Fee Revision:

The above fee structure shall be reviewed periodically. The Parties acknowledge that program fees may be revised annually by **up to 5%** to reasonably accommodate changes in technology, infrastructure, faculty expertise, computing/GPU resources, software and cloud services, research requirements, operational costs and other associated expenses.

7. Registration Fee Revision:

The CoE Registration Fee may similarly be reviewed annually and may be revised by **up to 5%**, subject to mutual consideration and applicable institutional requirements.

8. New Programs:

Programs introduced after execution of this MoU, particularly in emerging or advanced technology domains, may carry fees determined separately based on the scope, duration, infrastructure, resources and technical requirements of the respective program.

9. Fee Communication:

The applicable fee for each program, including any applicable concessions, scholarships, institutional benefits or student discounts, shall be communicated to students prior to registration.

10. Professional Programs Outside CoE

Olewin may offer additional professional programs to students of the Institution outside the standard CoE curriculum.

Eligible Institution students may receive preferential pricing or discounts for such programs, including a proposed discount of up to **25%**, subject to the program, applicable fee structure and terms communicated by Olewin.

Premium professional programs may provide enhanced individual mentoring, project exposure and participation in selected company product-development activities.

FINANCIAL TERMS

Any fees, cost-sharing arrangements, investments, scholarships, or commercial activities contemplated under this MoU shall be governed by mutually agreed written schedules, work orders, or annexures executed by both Parties, and shall not be implied from this MoU alone.

FEES AND FINANCIAL ARRANGEMENTS

Fees applicable to training, certifications, internships, professional programs, examinations, competitions or other activities shall be communicated separately.

14. TERM AND RENEWAL

14.1 This MoU shall come into force on the Effective Date and shall remain valid for a period of **nine (9) years** from the Effective Date, unless terminated earlier in accordance with the provisions of this MoU.

14.2 The Parties acknowledge that the establishment and progressive development of the Center of Excellence is intended to constitute a **long-term academic–industry collaboration**, requiring sustained investment, infrastructure development, technology deployment, R&D activities, faculty and student engagement, and progressive product-development initiatives.

14.3 During the Term, the Parties shall periodically review the performance, infrastructure requirements, technology roadmap, R&D activities, training programs and product-development initiatives of the CoE and may mutually agree upon appropriate modifications or expansion plans.

14.4 The Parties may, by mutual written agreement, renew or extend this MoU for such further period as may be mutually agreed. The Parties shall endeavour to initiate discussions regarding renewal at least **ninety (90) days prior to the expiry of the then-current Term**.

14.5 The phased technology investment, infrastructure requirements, technology roadmap and CoE development plan may be reviewed and revised from time to time during the Term based on emerging technologies, R&D requirements, project requirements, industry developments and the mutually approved expansion plan of the CoE.

14.6 Any revision to the investment plan, infrastructure requirements, fee structure or expansion roadmap shall not, by itself, constitute an amendment to this MoU unless such revision is expressly recorded and approved in writing by the authorized representatives of both Parties.

15. TERMINATION

15.1 Either Party may terminate this MoU by providing ninety (90) days' prior written notice to the other Party. Such termination shall take effect upon expiry of the notice period, unless otherwise mutually agreed in writing by the Parties.

15.2 Either Party may terminate this MoU with immediate effect by written notice if the other Party commits a material breach of this MoU and fails to remedy such breach within thirty (30) days from receipt of written notice specifying the breach and the corrective action required.

15.3 Either Party may terminate this MoU where continuation of the collaboration becomes unlawful, prohibited by a competent authority, or materially inconsistent with applicable laws, regulations or institutional requirements.

15.4 Upon termination or expiry of this MoU, the Parties shall, where reasonably practicable, cooperate in good faith to ensure the orderly completion or transition of ongoing training programs, student cohorts, internships, research activities, R&D initiatives and approved projects, with due consideration to the academic interests of participating students and the legitimate interests of both Parties.

15.5 Upon termination or expiry, Olewin shall be entitled to retrieve and remove its equipment, hardware, GPU infrastructure, computing systems, software, technical assets and other property provided or installed by Olewin at the CoE, subject to reasonable coordination with the Institution.

15.6 Each Party shall settle all undisputed fees, payments, reimbursements and other financial obligations accrued and payable up to the effective date of termination.

15.7 Termination or expiry of this MoU shall not affect the ownership, protection or rights relating to Intellectual Property developed, acquired or established prior to termination. Intellectual Property ownership shall continue in accordance with the Intellectual Property provisions of this MoU and any applicable project-specific agreement.

15.8 Termination or expiry of this MoU shall not release either Party from its confidentiality obligations. The confidentiality obligations shall continue for the period specified under this MoU.

15.9 Termination or expiry shall not affect any rights, obligations or liabilities accrued prior to the effective date of termination or any provisions which, by their nature or express terms, are intended to survive termination.

15.10 Termination of this MoU shall not automatically invalidate certificates, academic records or legitimately completed CoE activities of students who participated in programs prior to termination. The Parties shall make reasonable efforts to ensure an orderly conclusion or transition of such activities.

Termination shall not automatically affect:

- accrued obligations;
- confidentiality obligations;
- IP ownership;
- completed project obligations;
- payment obligations;
- equipment ownership; or
- provisions intended to survive termination.

16. RESEARCH & DEEP-TECH INNOVATION FRAMEWORK AND PRODUCT DEVELOPMENT

The Parties shall collaborate on:

The Parties shall establish a joint Research & Development framework under the CoE, covering project ideation, approval, execution, and review, consistent with the Research & Product Development Policy of Olewin's Corporate Governance & Legal Policy Manual (incorporated by reference to the extent not inconsistent with this MoU). Research and Deep-Tech projects shall be proposed with a defined scope, objectives, timeline, and resourcing, and approved by the Olewin before commencement. Projects involving human-subjects research, sensitive data, or dual-use technology shall undergo appropriate ethical and regulatory review prior to commencement.

- Joint research projects and industry-sponsored projects
- Product development and prototype development
- Innovation challenges and technology demonstrations
- Research publications in peer-reviewed journals and conferences
- Patent awareness, filing support, and IP protection guidance

RESEARCH & DEVELOPMENT

The CoE may undertake:

- Fundamental and applied research
- Multidisciplinary R&D;
- Technology experimentation;
- Proof-of-concept development;
- Prototype development;

- System design;
- Algorithm development;
- AI/LLM research;
- Hardware development;
- Software engineering;
- Technology validation;
- Research publications;
- Patent development; and
- Technology commercialization activities.

Research activities shall be undertaken in accordance with applicable institutional, legal, ethical and project-specific requirements.

PRODUCT DEVELOPMENT

The CoE may undertake real-time technology product development involving software, hardware, AI systems, platforms, devices, prototypes and other technology solutions.

Projects may progress through:

Research → Concept → Design → Development → Prototype → Testing → Validation → Deployment → Productization.

Students and faculty may participate in product-development activities where authorized by Olewin and subject to project requirements.

Access to company projects, source code, proprietary architecture, datasets, technical documentation or confidential product information shall be controlled by Olewin.

CoE Product Development

Unless otherwise expressly agreed in a written project-specific agreement, all products, technologies, software, hardware, designs, architectures, algorithms, AI/ML models, datasets, prototypes, technical documentation, inventions and other intellectual property developed under the CoE using Olewin technology, resources, proprietary frameworks, technical infrastructure, confidential information, project specifications or R&D ecosystem shall belong exclusively to Olewin.

- The Institution shall not claim ownership over Olewin's proprietary technology, platforms, products, frameworks or intellectual property merely by virtue of hosting the CoE.
- Where the Institution independently contributes pre-existing IP or separately funded resources to a specific project, ownership and licensing arrangements may be agreed through a separate written project agreement.
- No Party shall use, reproduce, commercialize, license or transfer the other Party's IP without appropriate written authorization.
- The Parties may mutually agree in writing to different IP ownership arrangements for specific projects where appropriate.
- **Student Registration:** Eligible UG and PG students across all disciplines shall be facilitated to register with the CoE.
- **Academic Integration:** CoE activities and projects may be integrated with applicable academic project requirements.
- **Progressive Learning:** Students shall progress from **Foundation → Core → Advanced → Professional → R&D & Product Development** tracks.
- **Real-Time Exposure:** Registered students shall receive opportunities to work on **real-time company projects, R&D initiatives and product-development activities.**
- **Multidisciplinary Collaboration:** Students shall work across departments and technology domains through multidisciplinary teams.

- **End-to-End Experience:** Students may gain exposure to **research, ideation, design, development, testing, deployment and product innovation** based on their selected program and project.

TRAINING & CERTIFICATION

Olewin shall design and deliver training and certification Programs through the CoE, covering the activated Technology Domains, with curricula, learning outcomes, and assessment criteria communicated to enrolled participants at the start of each Program.

Certificates shall be issued by Olewin upon a participant satisfying the attendance, assessment, and, where applicable, project-submission requirements of the relevant Program.

The Institution may, subject to its own academic regulations, recognise satisfactory completion of CoE Programs for internal credit or co-curricular recognition, at the Institution's discretion.

INTERNSHIPS

The Parties may facilitate internship opportunities for eligible students.

Olewin shall facilitate internship opportunities both (Paid & Unpaid) and real-time industry projects for eligible students of the Institution, subject to project availability and eligibility criteria. Internships shall be governed by a separate Internship Agreement executed between Olewin and each participating student (with Institution acknowledgement where required for academic credit), consistent with Olewin Internship Policy. Real-time projects conducted through the CoE shall follow the project-approval process under the IP and confidentiality provisions.

Internships shall be subject to project availability, eligibility, selection, performance and applicable organizational requirements.

The nature, duration, location, remuneration, deliverables and other terms of an internship shall be communicated separately where required.

Completion of training under the CoE shall not by itself constitute a guarantee of internship & placement.

17. FORCE MAJEURE

17.1 Neither Party shall be considered in breach of this MoU or be liable for any failure or delay in performing its obligations to the extent that such failure or delay is caused by circumstances beyond its reasonable control, including but not limited to acts of God, natural disasters, floods, earthquakes, fire, pandemics, epidemics, war, terrorism, civil unrest, governmental actions or restrictions, changes in law or regulatory requirements, major infrastructure or utility failures, widespread telecommunications or internet failures, or extraordinary cybersecurity incidents.

17.2 The Party affected by a Force Majeure Event shall notify the other Party as soon as reasonably practicable, providing reasonable information regarding the nature of the event and, where possible, its anticipated impact on the affected activities.

17.3 The affected Party shall use reasonable efforts to mitigate the effects of the Force Majeure Event and, where reasonably practicable, resume performance of its obligations at the earliest opportunity.

17.4 Where a Force Majeure Event materially affects the operation of the Center of Excellence, any Program, R&D activity, project, infrastructure deployment or implementation phase for a continuous period exceeding sixty (60) days, the Parties shall consult in good faith to determine an appropriate course of action, including temporary suspension, modification, rescheduling, restructuring or continuation of the affected activities.

17.5 If the Force Majeure Event continues for a period exceeding one hundred and eighty (180) consecutive days and materially prevents the continuation of the affected activities, either Party may request termination of the affected Program or, where the circumstances substantially prevent the continuation of the overall collaboration, initiate discussions regarding termination or restructuring of this MoU.

17.6 Nothing in this section shall relieve either Party of any payment obligation or other obligation that became due and payable prior to the occurrence of the Force Majeure Event.

18. DISPUTE RESOLUTION

18.1 Any dispute or difference arising out of or in connection with this MoU shall first be resolved amicably through good-faith discussions between the authorized representatives of the Parties.

18.2 If the dispute remains unresolved for thirty (30) days after being formally raised in writing, it shall be referred to and finally resolved by arbitration in accordance with the **Arbitration and Conciliation Act, 1996**, as amended from time to time.

18.3 The arbitration shall be conducted by a sole arbitrator mutually appointed by the Parties. The seat and venue of arbitration shall be **[Madanapalle, Annamayya, Andhra Pradesh India]**, and the language of arbitration shall be English.

18.4 This MoU shall be governed by the laws of India, and the courts having jurisdiction at **[Madanapalle, Annamayya, Andhra Pradesh India]** shall have jurisdiction over matters requiring judicial intervention, subject to the applicable provisions of the Arbitration and Conciliation Act, 1996.

19. SEVERABILITY

19.1 If any provision of this MoU is determined by a competent authority to be invalid, illegal or unenforceable under applicable law, such provision shall, to the extent required, be modified or severed, and the remaining provisions shall continue in full force and effect.

19.2 The Parties shall, in good faith, endeavour to replace any such provision with a valid and enforceable provision that most closely reflects the original intent and purpose of the affected provision.

20. NON-WAIVER

20.1 No failure, delay or omission by either Party in exercising or enforcing any right, remedy or provision under this MoU shall constitute or be deemed to constitute a waiver of that right, remedy or provision, nor shall it prevent or restrict the subsequent exercise or enforcement thereof.

20.2 Any waiver shall be effective only if expressly made in writing by the Party granting such waiver.

21. APPLICABILITY OF OLEWIN POLICIES, TERMS AND CONDITIONS

21.1 The Institution acknowledges and agrees that the CoE, its Programs, projects, technology platforms, research and development activities, product-development activities and related services shall be subject to the applicable **policies, terms and conditions, guidelines, standards, procedures, protocols and operational requirements of Olewin Pvt. Ltd.**, as communicated or published from time to time.

21.2 Such policies and requirements may include, without limitation:

- Terms and Conditions;
- Privacy and Data Protection Policy;
- Intellectual Property Policy;

- Copyright, Patent and Trademark Policy;
- Confidentiality and Non-Disclosure Requirements;
- Research and Development Policy;
- Product Development Policy;
- Technology Usage Policy;
- Cybersecurity and Information Security Policy;
- Student and Faculty Participation Policy;
- Internship Policy;
- Training and Certification Policy;
- Project Participation Policy;
- Fee, Refund and Cancellation Policy;
- Code of Conduct and Code of Ethics;
- Software, Hardware and Infrastructure Usage Requirements;
- Research Publication and Disclosure Policy;
- Innovation and Commercialization Policy; and
- such other corporate, technical, legal, compliance or operational policies of Olewin as may be applicable to the relevant activity.

21.3 The applicable policies, terms and conditions may be communicated through **Olewin's official website, designated digital platforms, project documentation, enrollment documentation or official written communication**, and shall apply to the relevant Program, project, technology, product or service.

21.4 Olewin may, from time to time, **introduce, amend, replace or update** its policies, terms, conditions, standards and operational requirements to reflect changes in applicable law, technology, cybersecurity requirements, research practices, business requirements or organizational requirements.

21.5 Students, faculty members, staff, researchers and other persons participating in CoE activities shall comply with the applicable Olewin policies and requirements relevant to their respective Program, project, access or participation.

21.6 In the event of any inconsistency between this MoU and an Olewin policy, term or condition, **the provisions of this MoU shall prevail**, unless the Parties expressly agree otherwise in writing. However, where a particular Program, project, product, technology or service is expressly governed by separate written terms or a project-specific agreement, such specific terms shall apply to that particular activity to the extent agreed by the Parties.

21.7 No policy, term, condition or communication issued under this Clause shall be construed as granting, assigning or transferring any ownership or proprietary rights in **Olewin Intellectual Property, products, technologies, software, hardware designs, patents, copyrights, trademarks, trade secrets, know-how, research outputs or confidential information**, except where expressly agreed in writing by Olewin.

21.8 The policies referred to in this Clause may be maintained and administered separately from this MoU and may be made applicable to the Institution and participating persons according to the nature and requirements of the relevant Program, project, technology or activity.

22. PROJECT-SPECIFIC AGREEMENTS

Where a particular R&D project, product-development activity, commercial engagement, technology transfer, licensing arrangement, sponsored research project or other activity requires additional terms, the Parties may execute a separate project-specific agreement.

Such agreement may specify:

- project scope;
- deliverables;
- timelines;
- funding;
- responsibilities;
- IP ownership;
- confidentiality;
- publication;
- commercialization;
- technical access;
- data requirements; and
- other project-specific conditions.
- NDA, Confidentiality

In case of inconsistency, the project-specific agreement shall govern only the relevant project to the extent expressly stated therein.

23. RESEARCH, PUBLICATION AND PATENTS

Research outcomes arising from CoE activities may be published in academic journals or presented at conferences, subject to prior review to protect any patentable or commercially sensitive content.

Where a project outcome is considered potentially patentable, the Parties shall discuss and agree, in a separate written agreement, on filing responsibility, cost-sharing, inventorship, and territory of filing, before any public disclosure that could compromise patentability.

Authorship and acknowledgment in any publication shall reflect actual contribution and be agreed upon by the contributing Parties before submission.

Patent filing, ownership, inventorship, prosecution and commercialization shall be determined in accordance with applicable IP provisions and project-specific arrangements.

23.1 Data Protection & Cybersecurity

The Parties shall process any Personal Data exchanged or collected in connection with this MoU — including student, faculty, and staff data — in compliance with applicable data-protection law and Olewin Privacy Policy and Data Protection & Cybersecurity Policy, incorporated by reference. Each Party shall implement reasonable technical and organisational security measures for data and systems under its control at the CoE, and shall promptly notify the other Party of any data breach or security incident affecting data shared under this MoU.

23.2 Representations & Warranties

Each Party represents and warrants that it has full corporate or institutional power and authority to enter into and perform this MoU, and that the individual executing this MoU on its behalf is duly authorised to do so.

Each Party represents that entering into this MoU does not conflict with, or result in a breach of, any other agreement or obligation binding upon it.

Olewin represents that it will use reasonable professional skill and care in the design and delivery of Programs under this MoU. The Institution represents that it will use reasonable efforts to provide the infrastructure and support described in Clause 8 and Schedule A within the agreed timelines.

24. RELATIONSHIP BETWEEN THE PARTIES

Nothing contained in this MoU shall be construed as creating a partnership, joint venture, agency, employment relationship or legal association between the Parties, except for the specific collaborative relationship expressly contemplated herein.

Each Party shall remain an independent entity.

The CoE may provide:

- industry-oriented technical training;
- professional certifications;
- project portfolios;
- technical assessments;
- interview preparation;
- career guidance;
- industry interaction;
- placement-readiness programs; and
- exposure to emerging technology roles.

Academic Project Integration: Integration of **real-time industry/company projects** offered through the CoE into students' academic project requirements, enabling practical industry exposure while **reducing duplication of work and additional project-development burden on the Institution and faculty.**

Employment or placement shall remain subject to individual eligibility and the requirements of the relevant employer.

25. AMENDMENTS

Any amendment, modification, addition or clarification to this MoU shall be made only with the mutual written consent of both Parties and shall become effective upon being duly signed by the authorized representatives of both Parties.

26. NON-EXCLUSIVITY

This MoU is non-exclusive. Nothing herein shall prevent either Party from entering into similar collaborations or arrangements with other institutions, companies, or organisations. However, neither Party shall disclose or use the other Party's Confidential Information or proprietary IP in connection with such activities.

27. NOTICES

All notices, requests, or other communications under this MoU shall be in writing and delivered by hand, registered post, or email to the addresses/contact details of the Parties as provided at the time of execution, or such other address as either Party may notify in writing.

28. ENTIRE AGREEMENT / UNDERSTANDING

This MoU, together with any annexures executed pursuant to it, constitutes the entire understanding between the Parties in relation to its subject matter and supersedes all prior discussions, negotiations, and understandings, whether written or oral.

This MoU constitutes the understanding between the Parties regarding the establishment and operation of the CoE and supersedes prior written or oral understandings concerning the same subject matter, except for documents expressly incorporated into this MoU.

29. EXECUTION

The Parties confirm that they have read and understood the terms of this MoU and agree to collaborate in good faith for establishment and development of the Center of Excellence. This MoU shall become effective upon execution by the duly authorized representatives of both Parties.

30. LIMITATION OF LIABILITY

Neither Party shall be liable to the other for indirect, incidental, consequential or special losses arising solely from ordinary activities under this MoU, except to the extent such limitation is prohibited by applicable law.

Nothing in this Clause shall exclude liability arising from fraud, willful misconduct, unauthorized use of confidential information, infringement of intellectual property rights, or any liability that cannot lawfully be excluded.

31. INDEMNIFICATION

Each Party shall be responsible for its own acts, omissions and obligations.

Where legally permissible, a Party shall indemnify the other Party against direct losses arising from its material breach of this MoU, negligence, willful misconduct or violation of applicable law, subject to applicable legal requirements.

32. ETHICS AND COMPLIANCE

The Parties shall conduct activities under this MoU in accordance with applicable laws, regulations, institutional policies, professional standards and ethical requirements.

Research involving human participants, sensitive datasets, regulated technologies or other controlled activities shall be undertaken only after obtaining applicable approvals.

33. E - SIGNATURES

This MoU may be executed in one or more counterparts, including by way of electronic or digital signature valid under the Information Technology Act, 2000, each of which shall be deemed an original, and all of which together shall constitute one and the same instrument

34. MISCELLANEOUS

34.1 No Partnership or Agency. Nothing contained in this MoU shall be construed as creating a partnership, joint venture, agency, employment or other legal relationship between the Parties, except for the specific collaboration expressly contemplated herein.

34.2 Independent Parties. Each Party shall remain an independent entity and shall be solely responsible for its respective personnel, resources, statutory obligations and internal affairs.

34.3 Assignment. Neither Party shall assign or transfer its rights or obligations under this MoU to any third party without the prior written consent of the other Party, except where such assignment is permitted by applicable law or arises as part of a lawful corporate restructuring, merger or succession.

34.4 Counterparts and Electronic Execution. This MoU may be executed in counterparts, each of which shall be deemed an original, and signatures exchanged electronically or through legally recognized electronic means may be treated as valid to the extent permitted by applicable law.

34.5 Schedules and Annexures. All Schedules and Annexures expressly referred to in this MoU shall form an integral part of this MoU and shall be read together with its provisions.

34.6 Survival. Provisions which by their nature are intended to survive the expiry or termination of this MoU, including provisions relating to Intellectual Property, confidentiality, accrued rights, outstanding payments and applicable restrictions, shall continue to remain effective after such expiry or termination.

34.7 Compliance with Law. Each Party shall perform its obligations under this MoU in accordance with all applicable laws, regulations and statutory requirements.

34.8 No Third-Party Rights. Except as expressly provided in this MoU, nothing herein shall confer any rights or benefits upon any person or entity other than the Parties.

34.9 Further Cooperation. The Parties shall execute such additional documents and take such reasonable actions as may be mutually agreed in writing for the effective implementation of the CoE and specific activities contemplated under this MoU.

SCHEDULES AND ANNEXURES

The following Schedules and Annexures shall form an integral part of this MoU and shall be read together with the terms and conditions contained herein:

Reference	Title	Purpose
Schedule 1	CoE Framework & Academic Integration	CoE structure, academic integration, student participation, faculty engagement and institutional implementation
Schedule 2	Technology & Innovation Domains	Technology domains, emerging technologies, R&D and product-development areas covered under the CoE
Schedule 3	Programs, Duration & Fee Structure	CoE registration, program categories, applicable fees, duration, discounts and fee revision framework
Schedule 4	Infrastructure & Phased Investment	Institutional facilities, Olewin investment, technology deployment, infrastructure requirements and asset ownership
Schedule 5	Academic Projects, Internships & Product Development	Academic projects, internships, real-time company projects, R&D activities and product-development opportunities
Schedule 6	Governance & Implementation Roadmap	CoE management, institutional coordination, implementation stages, review mechanism and operational responsibilities
Annexure A	Institution Details	Legal, administrative and authorized representative details of the Institution
Annexure B	CoE Infrastructure & Asset Record	Record of Olewin-owned equipment, systems and infrastructure deployed at the Institution
Annexure C	Project Charter / Project Authorization	Project-specific scope, deliverables, responsibilities, confidentiality, IP and implementation requirements

Order of Precedence

In the event of any inconsistency, the provisions of the main MoU shall prevail, unless a Schedule or Annexure expressly states that it is intended to modify or supplement a specific provision of the MoU. Project-specific requirements shall apply only to the relevant project and shall not modify the general terms of this MoU unless expressly agreed in writing by both Parties.

36. IN WITNESS WHEREOF

The Parties hereto have caused this Memorandum of Understanding to be executed by their duly authorised representatives on the day, month and year first above written.

The authorized representatives of the Parties have executed this Memorandum of Understanding (MoU) on the date first written above.
